Wishing to reduce our very large stock of elegant Furniture, we shall sell for the next 30 days, for cash, at greatly reduced prices. Our Parlor and Bed Room Sets are of the very latest designs and have been manufactured this winter. —Now is the time to buy Furniture cheap. —Call, you

[illegible]

ingness to the great medicinal effects with the least disturbance to the system.

"I consider Hood's Sarsaparilla one of the best medicines for early spring, when the blood is in a low condition and needs cleansing. I have often benefited by its use and have recommended it to my friends. — W. H. CORTIS, Esq. H. Agent, Haverill, Mass.

"If people want medicine to go all through them and up tell them to take Hood's Sarsaparilla. — J. O. BENTLEY, Esq. H. Agent, Lowell, Mass.

Dyspepsia.

Does not feel well of itself. If you have tried over every thing without benefit, don't give up but try Hood's Sarsaparilla. It has cured thousands of it. It cures you. It gives you a new life. No other Sarsaparilla has such a powerful effect upon the system, no other Sarsaparilla cures and strengthens the digestive organs like Hood's Sarsaparilla.

Hood's Sarsaparilla is designed to meet the wants of a large portion of our people who speak of being braced from up, give them an appetite, purify their blood and do up the machinery of their bodies as it will do the duty willingly. No other article takes hold of the system and hits exactly the spot. Hood's Sarsaparilla. It reaches every corner of the human body through the blood, giving to all renewed life and energy.

ance. Thanks to Hood's Sarsaparilla, my children are healthy and I am able to do as much as before. You never saw such a medicine. It goes right to the spot!

"When I had finished the second bottle of Hood's Sarsaparilla, I felt like a new man. I can do two days work in one day now. — J. M. DALLAN, Esq. H. Agent, Lowell, Mass.

"I have suffered from kidney complaints and Biliousness often years. Hood's Sarsaparilla cured me. — JONATHAN A. CORNELL, Lowell, Mass.

Scurfina.

The wonderful power of Hood's Sarsaparilla in eradicating every form of Scurfina fully establishes the fact that it is the greatest medical discovery of this generation. "I have needed Hood's Sarsaparilla in my family for so long, and have been with women) success. It is the best medicine we ever used." — C. Pickering (Coburn Station Co.), Lowell, Mass.

You still need to need Hood's Sarsaparilla. A sick man is a weak man, and strong men and women are forced to employ medicine to restore their health and strength, which only a few days ago they felt. Had an assured case of Scurfina, we ask the sick to try Hood's Sarsaparilla. A medicine which has so often proved its great curative properties.

Try this great medicine now

ANNUAL REPORTS.	
Report of the Corresponding School	10
Committee	10
For the City of New York	10

At the expiration of another Municipal year we have the honor of presenting our annual report.

With our schools well in hand at the beginning of the year, our plan to extend and improve and efficient and new theories to develop, the year has been one of steady work upon the line indicated to us last year, and consequently of gratifying progress.

THE NEW HIGH SCHOOL HOUSE.

The unobtrusive escape by the turn of year of the High School building, Feb. 18, 1884, continued until nearly close of the year, and the school was carried on by some classes of the best and Grammar school. But it was cheerfully endured by teachers and pupils, and their work was not seriously interrupted.

Knowing the building committee were doing all in their power to believe them, their courage and patience were equal to all demands, and they were not to be deterred. The building committee were doing all in their power to believe them, their courage and patience were equal to all demands, and they were not to be deterred.

Their occupancy of the schoolhouse during their quarters in the new building which make the loss of the old ones a substantial one, and the building committee were doing all in their power to believe them, their courage and patience were equal to all demands, and they were not to be deterred.

To all who have contributed to maintain the defeat of the element a year ago a victory today and the successful dedication of the new High School Building in November, the best of itself, and an era in our educational advancement.

PERSONNEL.

The teachers in the High School remain the same as last year, and there have been no changes in the High School Scholastic Association. The following are the names: Miss Carrie M. Richardson and Miss Mary E. Hart resigned, and the vacancies were filled by the promotion of Miss Adelaide E. Ryland and Miss Corrie E. Hodson, respectively. During the year the High School Assembly year began on all these teachers and their efficient principal Mr. M. Jordan. His resources and expe-

[illegible]

causes have lost their grade, are provided for in the Ungraded schools, which are now being built, and are doing a wonderful job in our school system.

TEXT BOOKS

There has been no change made in textbooks within the year and no new book has previously authorized has been introduced.

TEACHERS' MEETINGS

There have been sustained with undiminished interest. The teachers have uniformly attended them and made them occasions for the presentation of their own excellent addresses have been given upon practical topics by invited gentlemen, in addition to the general discussions, which are well varied and attractive.

PEOPLES' SCHOOLS

A petition numerously signed was presented to the superintendent school Committee some time last fall, praying for the reopening of the terms of the Suburban schools to correspond to the terms of the city schools. No means of obtaining a petition, as some of the Suburban schools were not represented on it, it was one of much weight and of great respect for consideration. But involving it would an additional expense of about \$300 per year, for which no provision had been made, the Committee realized that, however just the claim might be, it was not one to be granted. Therefore, without question upon its merits, it was referred to the Income Committee and your Honorable Body, for their consideration and action which is deemed.

And in the matter of one or two additional male teachers to have supervision of the boys in the city schools, which was proposed in the City Council within the past year, the Committee would respectfully represent that considerations of economy would be in the way of such an increase, and that they will be glad in the

At the last Teachers' Meeting it was suggested by the Chairman of this Committee that better work was being done by our schools than in the present, that many previous teachers within the school system had been, covering long three years. Even the Catholics had been being made up of them in their favor, being uniformly covered by school pushed instead of scholars neglected. And it may be added in praise of an action a scorp of the board, that the school system is being uniformly elevated, and the demands upon the scholars correspondingly increased. It is a very gratifying and worthy of serious notice have been reported within the year, and no grave complaint is being made. It is a very gratifying and worthy of serious notice have been reported within the year, and no grave complaint is being made. It is a very gratifying and worthy of serious notice have been reported within the year, and no grave complaint is being made.

of our teachers would be unanimously re-elected to fill their present positions, if made vacant to-day.

It is earnestly hoped that the services of such teachers will be properly valued by your Honorable Body, and no considerations of economy be permitted to discriminate against them.

The efficient School Agent, Mr. S. P. Drabner, has been informally ready to render the Committee all the assistance in his power, and is most obliging to him for many courtesies.

This detailed and comprehensive report we beg to refer you for a more extended view of the condition of the year in the education of the new High School Building, the improvement made in some of our school premises on account of the sickness from which we have suffered, which being in his power, was so important to the work, and for all the statistics of the school year.

Banger, March 11 1883

Report of the Harbor Master

BANGOR, March 17 1883

To the City Council

Gentlemen: I respectfully submit the following report for the year 1882:

The port opened to navigation April 9 and closed December 8 thus remaining open 243 days, during which time 2,027 vessels of all classes arrived. Of this number 19 were steamers, 12 barkes, 2 barkentine, 20 brigs, and the remainder sailing.

The following table shows the principal imports:

Salt 81,641 bushels, corn 306,433 bushels, coal 23,088 tons, lime 9,450 casks, fire rock, 111,000 tons, kerosene oil 4,460 bbbls, cement, 61,200 casks pig iron, 1,450 tons, plaster rock, 1,700 tons, nails, 3,465 kegs, unloading sand, 780 tons, steel rails, 300 do, superphosphate, 523 do, tinned cane, 575 M., total tonnage, 446,401, foreign arrivals, 10, foreign clearances, 40.

Respectfully submitted
JOS. F. FLINCH
Harbor Master.

PERSONAL AND MISCELLANEOUS

Mr Joseph Jefferson will remain until May on his Louisiana plantation, to which he has added many acres. Then he will return to his summer place in the Barrens Valley in New Jersey.

General Tompkins has welcomed home his granddaughter, who married against his will.

A Canadian farmer last summer lost two horses and although diligent search was made no traces of them could be found. Some two weeks ago, however, an Indian following a moose, tracked it to a yard where he found the horses and moose yarded together, and from all appearances the happy family had occupied the same quarters in common for a considerable time.

A diver says there are no unpleasant sensations while at work under water, and no drumming in the ears and this sometimes destroy the hearing if the person remains too long below. Four hours—two in the morning and two in the afternoon—constitute a day's work. A diver who was fond of stimulants once went down with a pretty good cargo of spirits aboard, and the men above, not knowing his condition, became seriously alarmed when several hours passed by without receiving any signals from him or any response to those they made to him. Another diver was sent down to look for him and found him lying on his back on the

An exchange mentions an incident of a South African ostrich which kicked at a man with great force, but, missing him, hit a horse instead and broke its back. From this it would seem that an ostrich is about as accurate a kicker as a woman is a thrower of stones.

The captain of the steamship Arctic, which has lately arrived at St. Johns, states that he came through two hundred and fifty miles of ice on the Atlantic, and died with countless icebergs. When about three hundred miles east of St. Johns he counted seventy-eight enormous bergs from the steamer's bridge.

Russell Harrison, son of Senator Harrison of Indiana, is said to be engaged to be married to the daughter of Senator Saunders, of Nebraska. He is superintendent of the United States Assay office at Helena, Montana territory, and is said to be growing rich rapidly from mining and other enterprises.

On February 7 and 8, Tokio and Yokohama were visited by a snow storm which has had to parallel since 1874. The snow fell uninterrupted for thirty-three hours, and the depth of drifts five or six feet deep in the streets of Tokio. On level ground elsewhere from a wind, the snow was actually twenty or thirty feet deep. Telegraph lines were broken down, railroad trains were buried and all traffic was suspended. When finally the snow appeared, says the Japan Weekly Mail, half the population of the city was dead.

ambassadors of the central light have been seen engaged in the game of snow-balling or building huge figures of Dardania at every vacant spot in the streets.

Kingland's weatherless baronet is said to be Sir John Ramaden, of Byram, Yorkshire. His seat-rail is computed at £300,000 a year. He owns almost the whole of Huddersfield, the great manufacturing centre. The little bit he doesn't own is a veryhabitable vineyard to his father who according to popular tradition, once offered to his Quaker owner to convert it with nectarals if he would sell.

"Edgewise, friend Ramaden?" quoth the Quaker. "In that case it is necessary that we all Huddersfielders should be clothed in nectarals." "Kissawee!" was replied more than the baronet could swallow.

Much interest has lately been aroused in
Denver, Col. and its vicinity by the ac-
count of the discovery of a large deposit of
potatoes in the mountains of Colorado.

nental production of an artesian well at
 North Denver, a region greatly in need of
 abundant supply of pure water. In or-
 der to decide whether or not a hole of con-
 siderable depth a hole boring was made, and
 the depth of 375 feet had reached when
 the great surprise of everybody con-
 sidered, a great flow of water stopped the
 work. A two-inch pipe was inserted and
 for nearly three weeks a steadily in-
 creasing volume of water has been dis-
 charged. Further experiments will be
 made in the neighborhood and sanguine
 people already beheld, in imagination,
 the surface of the country transformed by
 irrigation.

A convicted murderer in Texas has spent
 his body to a doctor for \$25 and is send-
 ing the money for good living.

Mr. Rusk declares that he will not
 resume the resumption of his former duties
 Oxford to destroy or change his pur-
 poses concerning the Walkley Museum at
 Sheffield. All delays and duplications in
 business, he says, have been the result
 of his own illnesses or ignorances, and
 he hopes now, in restored health and clearer
 knowledge, soon to fulfill whatever was
 set forth in the original design.

STATE NEWS.

Cumberland
 Early last week a man giving the name Jackson hired a team at Cook's livery stable, Cumberland Mills, for the purpose of taking to Frederick, he said, to attend a funeral. The man or team has not been traced since, although Mr. Cook is using every method to get track of them. The team was valued at \$300.

We spoke a while ago of the disgraceful sale of the paintings in the Bowdoin art collection, which is now situated in the basement of the chapel. And we concluded by asking again against this dusty, leaky room in which holds one of the greatest treasures of the college. Our hearts were sorely grieved to see by a report well substantiated too, that there was a strong movement on foot to erect here a one story gallery, with the light falling upon the paintings from above, and the building furnished by fire places at each end to preserve the paintings by coal dust or the report is true, that we can do better by being it is good, that at any one point position of the paintings ought to be a trumpet call to immediate and vigorous action on the part of the authorities.—Bowdoin Orient

THE VERY BEST

Brown Old Government Padang Java

COFFEE.

We have been at work for some time trying to get the best drinking O of Java coffee and have been supplied from a number of New York and London importers, with which we have reasoned and tried, and at last, after much trouble, we have selected the best, which we have secured the best, ever known, and as good as all our coffee as was ever brought to Bangor. We have purchased of his lot:

65 Pockets--4,335 Lbs.

And shall retail it at the following prices:

Raw, 25 Cents per lb.

Roast, 30 Cents per lb.

No doubt you can buy Java Coffee as low as perhaps at lower prices than we could sell this, but we are in the habit of carrying a good stock of the same, and we guarantee the quality with the low price Java Coffee. The quality of Java Coffee is not so good as good flavored as good Mocha Coffee. This is the best Government Padang Java, of which we have a good lot at 10 1-2 of the market. We are the only Java grove now in the market. We retail all our Coffee, condensed at our mill, twice a week, and guarantee first quality Coffee at all our prices. We will not sell it, unless we return it, and the money will be refunded.

W. F. SHAW.
 1851

BOSTON.
A STEAMER FROM PORTLAND
The steamer "Albatross" arrived at
Boston, N. H., at 10 o'clock
this morning. The ship was
loaded with coal and other
supplies. The captain, Mr. J. W.
Brown, reported that the ship
had a smooth voyage and
arrived safely. The ship was
inspected by the customs
officers and found to be in
good order. The ship will
depart for Portland tomorrow
morning.
